

# Material Safety Data Sheet

**ECOLAB<sup>®</sup>**

23 TB DISINFECTANT &amp; DEODORIZER

## Section 1. Chemical product and company identification

**Trade name** : 23 TB DISINFECTANT & DEODORIZER  
**Product use** : disinfectant  
**Supplier** : Ecolab Inc.  
370 N. Wabasha Street  
St. Paul, MN 55102  
**Code** : 920958-08  
**Date of issue** : 09-February-2010  
**EPA Registration No.** : 303-223-1677

**EMERGENCY HEALTH INFORMATION: 1-800-328-0026**  
**Outside United States and Canada CALL 1-651-222-5352 (in USA)**

## Section 2. Hazards identification

**Physical state** : Liquid. [Liquid.]  
**Emergency overview** : DANGER !

CAUSES EYE AND SKIN BURNS.  
CAUSES RESPIRATORY TRACT IRRITATION.  
HARMFUL IF ABSORBED THROUGH SKIN, SWALLOWED OR INHALED.  
Do not get in eyes, on skin or on clothing. Avoid breathing vapors, spray or mists. Keep container closed. Use only with adequate ventilation. Wash thoroughly after handling.

### Potential acute health effects

**Eyes** : Corrosive to eyes.  
**Skin** : Corrosive to the skin.  
**Inhalation** : Irritating to respiratory system.  
**Ingestion** : No known significant effects or critical hazards.

See toxicological information (section 11)

## Section 3. Composition/information on ingredients

<u>Name</u>	<u>CAS number</u>	<u>% by weight</u>
CHLOROPHENE	120-32-1	5.32
O-PHENYLPHENOL	90-43-7	3.55
GLYCOL	107-21-1	3
sulfuric acid, mono-c10-16-alkyl esters, sodium salts	68585-47-7	1 - 5
ISOPROPYL ALCOHOL	67-63-0	1 - 5
p-tert-pentylphenol	80-46-6	1.81

## Section 4. First aid measures

**Eye contact** : In case of contact, immediately flush eyes with cool running water. Remove contact lenses and continue flushing with plenty of water for at least 15 minutes. Get medical attention immediately.

**Skin contact** : In case of contact, immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Get medical attention immediately. Wash clothing before reuse. Clean shoes thoroughly before reuse.

**Inhalation** : If inhaled, remove to fresh air. If exposed person is not breathing, give artificial respiration or oxygen applied by trained personnel. Get medical attention if irritation persists.

**Ingestion** : Do not induce vomiting. Never give anything by mouth to an unconscious person. If irritation persists, get medical attention.

## Section 5. Fire-fighting measures

- Flash point** : > 100°C
- Hazardous thermal decomposition products** : Decomposition products may include the following materials:  
carbon dioxide  
carbon monoxide  
halogenated compounds  
metal oxide/oxides
- Fire-fighting media and instructions** : Use an extinguishing agent suitable for the surrounding fire.  
  
Dike area of fire to prevent runoff.  
In a fire or if heated, a pressure increase will occur and the container may burst.
- Special protective equipment for fire-fighters** : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

## Section 6. Accidental release measures

- Personal precautions** : Immediately contact emergency personnel. Stop leak if without risk. Use suitable protective equipment. Keep unnecessary personnel away. Do not touch or walk through spilled material.
- Environmental precautions** : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
- Methods for cleaning up** : If emergency personnel are unavailable, contain spilled material. For small spills, add absorbent (soil may be used in the absence of other suitable materials), scoop up material and place in a sealable, liquid-proof container for disposal. For large spills, dike spilled material or otherwise contain it to ensure runoff does not reach a waterway. Place spilled material in an appropriate container for disposal.

## Section 7. Handling and storage

- Handling** : Do not get in eyes, on skin, or on clothing. Avoid breathing vapors, spray or mists. Keep container closed. Use only with adequate ventilation. Wash thoroughly after handling.
- Storage** : Keep out of reach of children. Keep container in a cool, well-ventilated area. Keep container tightly closed.  
Do not store above the following temperature: 30°C

## Section 8. Exposure controls/personal protection

- Engineering measures** : Use only with adequate ventilation. If user operations generate dust, fumes, gas, vapor or mist, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits. Provide suitable facilities for quick drenching or flushing of the eyes and body in case of contact or splash hazard.

### Personal protection :

- Eyes** : Use chemical splash goggles. For continued or severe exposure wear a face shield over the goggles.
- Hands** : Use chemical-resistant, impervious gloves.
- Skin** : Wear suitable protective clothing.
- Respiratory** : Avoid breathing vapors, spray or mists.

### Name

GLYCOL

### Exposure limits

ACGIH TLV (United States, 1/2009).

C: 100 mg/m<sup>3</sup> Form: Aerosol

ISOPROPYL ALCOHOL

ACGIH TLV (United States, 1/2009).

STEL: 400 ppm 15 minute(s).

TWA: 200 ppm 8 hour(s).

OSHA PEL (United States, 11/2006).

TWA: 980 mg/m<sup>3</sup> 8 hour(s).

TWA: 400 ppm 8 hour(s).

## Section 9. Physical and chemical properties

Physical state	: Liquid. [Liquid.]
Color	: Brownish-red.
Odor	: Phenolic.
pH	: 12 to 13 [Conc. (% w/w): 100%]
Boiling/condensation point	: >100°C (>212°F)
Relative density	: 1.04 to 1.06

## Section 10. Stability and reactivity

Stability	: The product is stable. Under normal conditions of storage and use, hazardous polymerization will not occur.
Reactivity	: Slightly reactive or incompatible with the following materials: acids.
Hazardous decomposition products	: Under normal conditions of storage and use, hazardous decomposition products should not be produced.
Hazardous polymerization	: Under normal conditions of storage and use, hazardous polymerization will not occur.

## Section 11. Toxicological information

### Potential acute health effects

Eyes	: Corrosive to eyes.
Skin	: Corrosive to the skin.
Inhalation	: Irritating to respiratory system.
Ingestion	: No known significant effects or critical hazards.

### Potential chronic health effects

Reproductive effects	: Contains material which may cause reproductive effects based on animal data.
Developmental effects	: Contains material which may cause developmental abnormalities, based on animal data.

### Other adverse effects

Target organs	: Contains material which causes damage to the following organs: kidneys. Contains material which may cause damage to the following organs: upper respiratory tract, central nervous system (CNS).
---------------	---

## Section 12. Ecological information

Ecotoxicity data	: Not reported
------------------	----------------

## Section 13. Disposal considerations

Waste disposal	: The generation of waste should be avoided or minimized wherever possible. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements.
Waste classification	: Unused product is D002 (Corrosive)

Consult your local or regional authorities.

## Section 14. Transport information

Certain shipping modes or package sizes may have exceptions from the transport regulations. The classification provided may not reflect those exceptions and may not apply to all shipping modes or package sizes.

### UN Classification

UN number UN1903  
 Proper shipping name DISINFECTANT, LIQUID, CORROSIVE, N.O.S., (Ortho-benzyl-para-chlorophenol)  
 Class 8  
 Packing group III

Additional information Limited quantity

See shipping documents for specific transportation information.

## Section 15. Regulatory information

**HCS Classification** : Corrosive material  
 Target organ effects

### U.S. Federal regulations

TSCA 8(b) inventory : All components are listed or exempted.

EPA Registration No. : 303-223-1677

SARA 302/304/311/312 extremely hazardous substances: No products were found.

SARA 302/304 emergency planning and notification: No products were found.

SARA 313	Product name	CAS number	Concentration
Form R - Reporting requirements	O-PHENYLPHENOL	90-43-7	4.03
	GLYCOL	107-21-1	3.4

**California Prop. 65** : This product is not for sale or use in the state of California.

## Section 16. Other information

Hazardous Material Information System (U.S.A.)	Health	* 3
	Flammability	0
	Physical hazards	0

Date of issue : 09-February-2010.

Responsible name : Regulatory Affairs

Date of previous issue : 09-December-2009.

### Notice to reader

The above information is believed to be correct with respect to the formula used to manufacture the product in the country of origin. As data, standards, and regulations change, and conditions of use and handling are beyond our control, NO WARRANTY, EXPRESS OR IMPLIED, IS MADE AS TO THE COMPLETENESS OR CONTINUING ACCURACY OF THIS INFORMATION.
